Production of aluminum holders and tin tiles for solar panels

OUR STORY

Solen Master d.o.o. was founded in **2021** with its headquarters in Jajce in Bosnia and Herzegovina. Our main activity is the production of aluminum brackets for solar panel supports and tin roof tiles.

The production process is aimed at meeting the highest standards of quality and safety, which enabled our products to become recognizable on the European market – in Germany and Austria.

Each product is carefully crafted to provide superior performance and aesthetics.
